#Problem Statement: GitHub Developer Portfolio

The Mission: Create a professional developer dashboard that visualizes GitHub activity, repository stats, and coding streaks to create a personal branding page.

Frontend UI & User Interaction:

- **Contribution Graph:** A visual heatmap grid displaying daily coding activity, colored by intensity.
- **Repository Cards:** Display key metrics for each repo: Star count, Fork count, Language tag, and a short description.
- **Profile Header:** A summary section showing follower count, total stars, and "Top Languages" pie chart.

Backend Logic & State Management:

- **API Integration:** Connects to GitHub REST/GraphQL APIs to fetch user-specific data.
- **Caching Engine:** Uses SQLite to cache repository metadata and user settings locally to minimize API rate-limiting issues and speed up page loads.

The Vibe Check: Add a "Tech Stack Compatibility" score. Allow the user to input a job description. The backend must compare the keywords in the job description against the languages used in the user's cached repositories and generate a "Match Percentage" badge at the top of the profile.

Additionally, suggest and include two extra features that are not listed above, based on your understanding of chatbot capabilities.

#Candidate Guidelines: Please read the following instructions carefully before appearing for the assessment.

Assessment Details:

- The Vibe Coding Round will begin sharply at **02:00 PM** and conclude at **04:00 PM**.

- Candidates are expected to join the assessment platform (Unstop) 10 mins prior.
- Once the round begins, the detailed problem statement will be shared on Unstop.

Proctoring & Setup Requirements:

- You must share your entire screen throughout the assessment.
- Your camera & mic must remain switched on for the complete duration of the round.
- Unstop will proctor the assessment throughout the session.
- Any suspicious activity, violation, or attempt to bypass proctoring guidelines may impact your score and candidature.

Use of AI Tools

- Candidates are permitted to use any AI tool to complete.
- The evaluation will focus not only on the final solution but also on your understanding of the implementation during the subsequent Viva round.

[IMP] Submission Process:

- We suggest spending the first 5 mins understanding the problem statement.
- Plan your time effectively to ensure you have sufficient time to upload your solution to GitHub and complete the submission process before the deadline.
- Maintain meaningful and incremental Git commits that clearly reflect the functionality implemented at each stage of development.
- Follow a clean, scalable, and well-structured architecture for both the frontend and backend components of your solution.
- All business logic, calculations, validations, and computations should be implemented on the server side. The frontend should primarily handle presentation and user interactions.
- After uploading your code, submit the GitHub repository link on ***Unstop (Vibe Coding Submission).***
- ***The GitHub link must be submitted no later than 04:00 PM (Oct 29th).***
- Any submission received after 04:00 PM will be automatically disqualified.
- We will verify GitHub commits and upload timestamps. Any edits, commits, or modifications made after 04:00 PM (Oct 29th) will lead to disqualification.
- Ensure that the **GitHub repository is publicly accessible** for review.

Restrictions:

- Mobile phones/Calculators or any other device is strictly prohibited.
- **Do not connect headphones or any Bluetooth-enabled devices during the round.**
- Please ensure that all system notifications, pop-ups, and distractions are disabled.
- External assistance from any individual is strictly prohibited.

Candidate's Responsibility:

- A quiet, well-lit environment & a stable/reliable internet connection.
- A fully charged laptop and access to power backup if required.
- Sufficient access to the AI tools you intend to use, including any token, usage, or subscription limits.

Final Note

- No re-attempts or extensions will be provided under any circumstances.
- By participating in this round, you agree to adhere to the assessment guidelines and maintain the highest standards of integrity and professionalism.

We wish you all the best for the Vibe Coding Round!
